

FoundationSearch World

The most powerful funding research product available to assist International Non-profits!

Requesting funding from abroad has become a natural response to the needs faced by non-profit sectors around the world. With a limited number of giving foundations based in each region, it's important to find other sources of funding to add to local charitable income. A large proportion of international funding comes from generous foundations and corporations located across North America.

Until now, prospect researchers have only had searchable access to a small percentage of information about international giving by North American foundations. Now Metasoft brings you FoundationSearch World, a revolutionary new research product dedicated to providing your organization with every international funding opportunity available from North America.

FoundationSearch is the first fully searchable, online database of all U.S. and Canadian Foundation tax return information for the serious prospect researcher. Containing the tax filings of over 80,000 North American foundations - spanning the years 1997 to 2002 and - FoundationSearch is the most comprehensive source of international foundation giving information.

Keep your organization on top of new funding opportunities - over 6,000 new foundations are formed every year - many give internationally. FoundationSearch provides updates of foundations that have recently received their IRS tax exempt "rulings" and a fully searchable, indexed database of the initial filings of all new U.S. foundations.

With FoundationSearch you can:

- Search for foundation grants given to international non-profits and causes
- Access information on 390,000 North American foundation directors and officers
